16. April 2009

Graft speaks at the 2009 Gulf Coast Green Symposium in Houston, TX

On April 16th at 2pm GRAFT gives a presentation about the Make It Right Project at the 2009 Gulf Coast Green Symposium. As part of the session entitled 'Alternative Technologies' the talk will focus on the special challenges of the rebuilding of the Lower 9th Ward, an area of New Orleans that was left devastated by hurricane Katrina. At this moment the first houses have been completed and the owners are beginning to move back into the area. By the end of the year 100 houses are expected to be completed, resurrecting this formerly vivid neighborhood.

04. April 2009

Graft attends 11th International Bauhaus Colloquium - Weimar 2009

Graft will give a speech on 04. April 09, 20:30, titled "Architecture in Times of Need". - Architecture as an answer to social injustice, climate change, the repercussions of globalisation and the consequence of assuming a leading role in corporate social responsibility. Opportunities and challenges will be exemplified on the basis of the non-profit organization „Make It Right“.

Since 1976 the Bauhaus-Colloquia pose basic questions about contemporary architecture in a perennial rhythm; they are the oldest and most established conference in architecture theory and -history in german speaking area.
